PIX is amongst the most reliable manufacturers in the global Mechanical Power Transmission industry with an extensive range of high-performance V-Belts, Timing Belts, and Poly-V Belts to suit a wide array of Industrial, Agricultural, Automotive, and Recreational applications.

**PIX-Harvester®-XS
(Agricultural Wrap Belts)**

High tensile strength and high wear resistance outer cover. Specially designed for reverse idler applications.

**PIX-Harvester®-HXS
(Heavy-duty, High-power, Banded Wrap Belts)**

Special construction, highly durable, Banded Wrap Belts designed for high tensile strength, high power transmission and compatible with reverse idler.

**PIX-Enforcer®-XS
(High-power, High-strength, Inversely Flexible Wrap Belts)**

Best of class Aramid corded Belts specially designed for superior resistance to shock loads and special-woven outer cover fabric for high wear-resistance, flexibility and acute reverse bending drives.

**PIX-Harvester®-XV
(Agricultural Moulded Raw Edge Cogged Belts)**

Special fibre loaded compression compound and cog design for superior power transmission, excellent flexibility and quicker heat dissipation rate in the high-speed variator-drives.

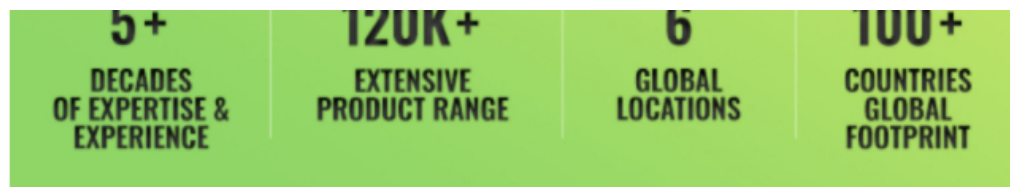

**Duo®-XS
(Hexagonal Wrap Belts)**

Double-sided V-belts designed for multi-pulley, twin-power frictional drives.

INFRASTRUCTURE

The Company features state-of-the-art Belt manufacturing units as well as an ultra-sophisticated, automated Rubber Mixing facility. The culmination of continual investment, rich and diverse experience, technology, state of the art facilities which include a design centre, fabrication workshop, and elaborate testing facilities have positioned **PIX** as a highly-prolific and reliable manufacturer.
